Patrice Maxwell

Kennesaw, Ga | 678-549-5688| Patricedmaxwell@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY:

Full Stack Developer with hands-on experience designing, developing, and deploying dynamic web applications using modern technologies, including React, Node.js, and MongoDB. Skilled in building responsive, user-centric interfaces and robust back-end systems. Adept at collaborating with cross-functional teams, optimizing performance, and delivering scalable, maintainable code. Looking to combine my technical skills and collaborative approach to drive innovation and meaningful results in every project.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS, TypeScript, Java, JavaScript
Frameworks: React(+hooks, Native), Bootstrap, Docker, JIRA, Google Cloud Platform
Database Management: - MySQL, MongoDB, PostgreSQL
Software Tools: - Microsoft Office Packages, Github, UML, SQL Server, Visual Studio, Node.js, JIRA

PROJECTS

RiceFlixs | Full Stack Developer
Personal Project | November 2024
Developed a responsive streaming platform clone using **React** for the frontend, **npm** for package management, and integrated **TMDb API** for dynamic movie data.
Applied state management and optimized API calls for fast, efficient rendering of large datasets.
Implemented features such as **movie browsing, search, trailers, and genre filtering**, mimicking Netflix functionality.
Deployed application on **Vercel** (frontend), ensuring seamless accessibility across devices.

Optimized Outreach Platform| Project Manager & Full Stack Developer
Contract | November 2022 - July 2023
Developed a **digital outreach platform** using Adobe Forms and Zoho databases, streamlining workflows and increasing user engagement.
Designed and implemented an **inventory management system** for office devices, optimizing tracking, allocation, and operational efficiency.
Applied version control (Git) and deployment strategies, and led **architectural decisions** to ensure scalable, maintainable, and high-performance software solutions.

WORK EXPERIENCE

Ray's in the City| Bartender | Atlanta, GA   *August 2022 - November 2025*
- Crafted innovative cocktail recipes that attracted a diverse clientele, increasing bar sales by 20% over six months, which helped boost overall restaurant revenue.
- Trained and mentored new staff on mixology techniques and customer service standards, helping to create a more knowledgeable team that significantly improved guest satisfaction ratings.
- Managed inventory and ordering of supplies, which reduced waste by 15% and ensured popular ingredients were always available, preventing potential sales losses during peak hours.
- Fostered a welcoming atmosphere by engaging with customers and building rapport, which resulted in a loyal customer base and positive word-of-mouth that brought in new patrons.

WORK EXPERIENCE continued

Warner Media, NBA| System Engineer| Atlanta, GA   *September 2019 - December 2020*
- Maintained scalable media streaming and broadcasting systems supporting NBA content delivery, ensuring 99.9% uptime during live events.
- Implemented automation scripts and monitoring tools to optimize server performance and reduce operational bottlenecks by 4%.
- Collaborated with cross-functional teams, including network engineers, developers, and broadcast operators, to integrate backend systems with live event workflows.
- Managed system security, patching, and disaster recovery protocols to ensure compliance with corporate and industry standards.

Google Inc| IT, Intern| Atlanta, GA   *May 2018 - August 2020*
- Provided Tier 1 technical support for Google employees, troubleshooting hardware, software, and network issues to ensure seamless daily operations.
- Collaborated with cross-functional IT teams to resolve escalated tickets, contributing to faster response times and improved end-user satisfaction.
- Assisted in the deployment and maintenance of workstations, laptops, and mobile devices, adhering to IT security and configuration standards.
- Recognized in Google's National Intern Day feature for impactful contributions to IT support operations during the internship (Featurette).

Encompass, NFL | Master Control Operator | Atlanta, GA   *January 2018 - June 2019*
- Ensured the integrity of broadcast signals via strength variant assessments and coordinated troubleshooting.
- Performed system checks, enforced upgrades, and utilized monitoring tools to minimize service interruptions.
- Organized and managed media playlists (videos, commercials, etc.) for scheduled broadcasts, overseeing the precise timing and synchronization of content delivery.
- Utilized broadcast automation and master control systems to oversee smooth content transitions, adapt to last-minute changes, and integrate urgent media like breaking news with zero disruption to the broadcast schedule.

EDUCATION/CERTIFICATIONS

Per Scholas | **Software Engineering MERN** Stack training   October 2025 - February 2026
Remote (15-week hybrid environment training, including: HTML | CSS | JavaScript | Node.js | Express.js | MongoDB | React | SQL) , IBM Software Development Pathway

Georgia Institute of Technology | Computer Science | Masters of Science   January 2025 - present
Relevant Coursework : Data Structures and Algorithms , Computer Architecture , Operating Systems , Software Engineering , Artificial Intelligence, Web Development , Machine Learning , Databases (SQL & NoSQL)

Python Institute | **PCAP** Certified Associate Python Developer   June 2025
Certification

Coding Dojo | **CSDA** Certified Software Development Associate   March 2024
Certification

Georgia State University | Computer Science | Bachelor of Science   August 2016 - December 2020
Relevant Coursework: Data Structures, Algorithms, Operating Systems, Computer Networks, Software Engineering, Databases, Web Development, AI & Machine Learning
